

MANDEEP DEBNATH

• frontend developer •

I'm an undergrad and frontend developer and I love building static as well as dynamic mobile-responsive websites using HTML, CSS, and Javascript.

I make web apps using React JS and various CSS frameworks like TailwindCSS and Material UI.

EXPERIENCE / PERSONAL PROJECTS

Over the past year, I've worked on multiple personal projects using various technologies.

May 2021

Frontend Mentor Challenges

- Completed various challenges from the **frontendmentor.io** website.
- Worked on making complex layouts and completed the designs as per the challenge using HTML, CSS.

June 2021

Javascript Apps/Games

- Made a tic-tac-toe game using Javascript and used CSS for styling.
- Made a meditation app using that plays relaxing music for meditation.
- Made a rock-paper-scissors game using Javascript.

September 2021

React Websites/Apps

November 2021

- Made a Todo list app using React and Material UI.
- Made a Netflix clone using React, TMDB API, and plain CSS for styling.
- Made a Google Search clone using React, search API, and TailwindCSS for styling.
- Made a Movies finder app using React and TMDB API.
